What Is Science And Why Is It Often Imperfect?

25. 11. 2024 | 15:00 - 16:00

FZS UJEP - AULA 1.01

"SPEAKER WILL INTRODUCE TO THE AUDIENCE THE FEATURES THAT MAKE SCIENCE WHAT IT IS. THIS WILL COMMENCE AT A VERY RUDIMENTARY LEVEL, AND AS CONTENT IS PRESENTED IT WILL BUILD USING REFERENCES TO KEY TEXTS OF SCIENTIFIC HISTORY AND PHILOSOPHY TO BUILD A DEFINITION FOR WHAT SCIENCE IS. AS SCIENCE IS A HUMAN BEHAVIOUR, IT IS EXPOSED TO THE FLAWS OF HUMAN BEHAVIOUR. THIS MEANS THERE ARE CONSTANT DANGERS FOR HOW SOME SCIENTISTS GET THIS PROCESS WRONG THROUGH THE UNCONSTRAINED FLAWS OF THEIR PRIOR EDUCATION, KNOWLEDGE, PERSONALITY AND BEHAVIOUR."

**PŘEDNÁŠKA BUDE PROBÍHAT
